

Freccia

you can't
get any
smaller

MAXIMA
ADVANCED SOLUTIONS

Freccia

For efficient, capable, safe and convenient domestic cleaning. It is a small machine with a great performance:

it vacuums,
washes,
dries,
sanitises
and irons.

A special, powerful, ecological and space-saving machine, designed and made for today's needs.

you
can't
get any
smaller!

The **boiler** refills automatically

Freccia
MADE IN ITALY

Freccia's 155°C steam guarantees deep hygiene thanks to its efficient boiler.

The boiler is one of the main components of the machine, steam is created inside it. Limescale is the boiler's main enemy, Maxima uses technology designed to help reduce the risk of clogging and malfunction.

Automatic refilling

A high-pressure pump injects water directly into the boiler while always keeping the level constant when using steam. You can refill the tank even when the machine is switched on without losing time.

STEAM GENERATION

1. Descaler injector
2. Stainless steel
3. Heater

Freccia's 155°C steam is a guarantee of deep hygiene

Air cleaning

Freccia
MADE IN ITALY

Freccia's special motor performs two functions: deeply sucking the dirt and filtering the outgoing air.

The exclusive molecular separator mechanically intercepts the smallest dirt particles and guarantees constant air filtration. Thanks to it, the engine will not suffer the loss of suction due to dirty filters that need to be replaced.

The aspiration of Freccia is always at maximum efficiency.

AIR CLEANING CYCLE

- 1 Suction**
Unhealthy air and dust are sucked up and conveyed inside the machine.
- 2 First filtering**
Unhealthy air is subjected to a first filtering using water.
- 3 Output of clean air**
A second filtering operation is then carried out by the exclusive "molecular separator" that manages to intercept and reject even the smallest particles.
- 4 Output of clean air**
These two natural filters expel healthy, clean and perfumed air.

Sucking up dirt
is not enough, it
must definitely
be trapped

optional accessories

standard accessories

Freccia
MADE IN ITALY

Steam lance adapter

Multifunction brush

Extensions

Handle with hose

Wiper

Tank filling bottle

150-mm opening

Kit sanitation maxi

Vaporizing turbo brush

Iron

Turbovapor

High efficiency turbo brush

Extendable hose

Vaporiser

Natural essential oils

Transparent opening

Technical data

Suction: **2400 MM**

Motor power: **1200 WATT**

Dimensions: **40 X 30 X 37,5 CM**

Steam pressure: **4,5 BAR**

Boiler power: **1800 WATT**

Boiler volume: **0,9 L**

Refilling system: **AUTOMATIC**

Steam ready: **3 MIN**

Water tank for steam: **0,9 L**

Water filter capacity: **3,5 L**

Some important features

- > Intuitive digital control panel
- > Dual-turbine motor
- > Excellent holding capacity of up to almost 4 litres
- > Water filter
- > Molecular separator
- > 4,5 bar steam with unlimited autonomy
- > Powerful suction of solids and liquids
- > Cleans the air
- > Steam cleaning
- > Instant drying
- > Professional ironing
- > Automatic refilling
- > Made in Italy
